

Introducing
The GivenGroup Foundation
CSRNEWSSA's CSI project management arm

About

The GivenGroup Foundation is the brainchild of CSRNEWS Africa, South Africa's premier CSI news and information platform. The Foundation was established to tackle the many practical project management tasks and issues associated with corporate social investment, and is a natural outflow from our years of CSI practice in its many diverse forms.

Over the years, we have built up a team of development specialists, qualified journalists, editors and project managers who are modern and forward thinking - steeped in the language and knowledge of CSI and able to deliver impactful projects that meet both the developmental needs of SADC countries and the demands of corporate boardrooms.

“

**QUALITY MEANS DOING IT RIGHT WHEN
NO ONE IS LOOKING** - HENDRY FORD

How we work

Your project will be assigned an overall project coordinator and hands-on project manager, who will handle every aspect of the project from inception to implementation to final report. We make you, the client, part of the project management cycle, keeping you informed and updated through weekly or monthly status meetings. This ensures peace of mind and provides the opportunity to make minor adjustments or simply stay abreast of progress.

Our service takes away the stress of having to manage multiple projects at once; we'll develop and manage the project budget with you, implement the programme, and take care of administrative issues, providing a seamless service from start to finish. Our project management and reporting team combines years of experience in development work with a unique understanding of today's boardroom realities. We know the pressures under which CSI managers work. We are truly your right-hand person when it comes to conceiving, budgeting, implementing and effectively reporting on projects.

“

A PROJECT IS COMPLETE WHEN IT STARTS WORKING FOR YOU, RATHER THAN YOU WORKING FOR IT - SCOTT ALLEN

Our process

Over the years, CSRNEWS has developed and finely honed a simple, streamlined and effective process for managing projects, and are now able to import this to the GivenGroup Foundation. Simply stated, we engage in an overall Vision Meeting, research and develop the concept, plan the project in phases, execute the project and deliver a clear, highly communicative report on it. You, the client, may be involved in any phase of this process, should you so desire.

“

**TIME IS A SCARCEST RESOURCE AND
UNLESS IT IS MANAGED NOTHING ELSE
CAN BE MANAGED**

Why use us?

Our highly skilled and experienced project management team is uniquely positioned to deliver on what you require: Our regional development practitioners and journalists are skilled at research, concept development and implementation, and have a unique network of contacts throughout the country – and now the SADC region, too.

We have proven over the years that we don't just deliver; we deliver high-quality services, with minute attention to detail. The programmes we have delivered in the past have paved the way for many businesses conducting CSI in South Africa today. Our mother company, CSRNEWS Africa, is currently expanding into Africa, so that the GivenGroup Foundation is ideally positioned to take your projects beyond the borders of South Africa. Our top-of-the-range processes have proven time and time again that we do not just put programmes together – we conceptualise and implement projects that are meaningful and change lives.

“

CHANGE BEFORE YOU HAVE TO
